SI PPS Social Care Network Resource Guide

Welcome to the Staten Island PPS Social Care Network Resource Guide. In this guide, you will find information about different resources in the community related to helping Members with health and social needs. Each resource has a description of what the program can offer. Some services require that members be screened for health-related social needs and need to meet specific criteria. Some services may have other age, income, and chronic condition requirements in order for Members to qualify for that service. On page 52, you can find a list of providers in the community who can provide screenings and connect you to services.

If you have any questions, please contact us at (917) 830-1140 or SIPPS-contactus@northwell.edu.
