Your Health, in Your Hands.

Staten Island PPS
Social Care Network

The Staten Island Social Care Network can connect Medicaid Members to free **housing, food, transportation assistance, and more.** We can discuss your needs and connect you to local services that will best support your health.
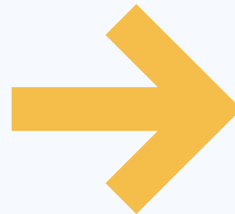

What does this mean?

If you have Medicaid, you can get a FREE screening to find out if you're eligible for services like the ones listed. All services are covered by Medicaid and come at no cost to you. Screening is quick, easy, and convenient. Better health is only a call or click away!

Not sure if you have Medicaid?
Check if you have this card or call Staten Island PPS at the number below.

Scan the QR code to complete the social needs screening form online.
